Limassol, Cyprus
Willing to relocate

SKILLS

Languages & Core
Kotlin, Java

Architecture
MVI · Clean · ELM (Elmslie)
Modularization

Async
Coroutines · Flow · RxJava

DI
Dagger 2 · Metro · Hilt

Networking
GraphQL (Apollo)
gRPC + Protobuf · Ktor ·
OkHttp

UI
Jetpack Compose · Android
View

Testing
Kaspresso · JUnit

Build & CI
Gradle · Kotlin DSL
GitLab CI · Gradle Profiler
App Bundle

Observability
Grafana · Sentry
Firebase Crashlytics &
Performance

Distribution
Google Play
Huawei AppGallery · RuStore

EDUCATION

Moscow State University

EXPERIENCE

Senior Android Engineer — Platform

Banco Plata · Full-time Dec 2022 – Present · Limassol, Cyprus

Platform team of 4, supporting 20+ Android engineers. Product: millions of DAU.

BUILD & DEVELOPER PRODUCTIVITY

- ▶ Reduced median build time by 35% across all CI and local builds — instrumented hundreds of daily builds (10,000+ Gradle tasks/day, ~1,000 modules) via Grafana dashboards with Slack alerting; two iterations across infrastructure migrations
- ▶ Migrated DI from Dagger 2 to Metro: 1.5× faster cold builds, unlocking modular team sandboxes
- ▶ Measured Android Studio / IntelliJ IDEA sync phases; identified bottlenecks, built Grafana visualizations, authored internal fix guidelines
- ▶ Migrated CI to Kotlin DSL: full build variants, localization checks, Docker image automation
- ▶ Configured App Bundle for Google Play and Huawei AppGallery

APP PERFORMANCE

- ▶ Introduced Baseline Profiles for startup: ~20% cold start improvement
- ▶ Wrote automated tests detecting redundant network requests at app launch
- ▶ Maintained Huawei (no GMS) support — 5% of user base in Mexico

PLATFORM & TOOLING

- ▶ Founded Mobile Toolbox — internal telemetry service; architected for cross-team scaling (iOS onboarding in progress)
- ▶ Led module structure decisions using Gradle Profiler and synthetic benchmark projects
- ▶ Drove Android app security foundation with AppSec, DevOps, and DWH teams

LAUNCH CONTRIBUTIONS

- ▶ Shipped profile screen, theming, localization, QR (ZXing); automated Jira via pipeline state hooks

Android Platform Lead — Marketplace BU

VK Company · Full-time Dec 2021 – Mar 2023 · Moscow · 1 yr 3 mos

Horizontal Android lead across ~20 engineers (VK Marketplace + Youla). Scope: platform, quality, cross-team practices.

PERFORMANCE

- ▶ Reduced Youla app cold start by 55% — hands-on technical work with delegated team execution
- ▶ Built startup instrumentation and build observability via Grafana (talaiot plugin)

PROCESS & ENGINEERING CULTURE

- ▶ Launched Initiative Groups — voluntary tech debt program: engineers self-select platform tasks between sprints; delivered stack modernization without dedicated headcount
- ▶ Established cross-team practices: release management, tech debt backlog, platform syncs, interview process
- ▶ Guided team adoption of Kaspresso for UI testing

CI & INFRASTRUCTURE

- ▶ Built and maintained GitLab CI pipelines across all Youla build variants

COMMUNITY

- ▶ Spoke at Mobius and Heisenbug conferences
- ▶ Taught Android at VK's Sirius and Technopark educational programs
- ▶ Reviewed engineering articles for publication

Principal Android Engineer

Mail.Ru Group · Full-time Apr 2015 – Dec 2021 · Moscow · 6 yrs 9 mos

Youla — Marketplace · 2018–2021

~1.8M DAU · ~11.5M MAU · Crash-free 99.9%

2008 – 2013
Mathematician,
System Programmer

[Public Talks \(LinkedIn\)](#)

- ▶ Designed and owned Android architecture; defined technology standards across Android teams
- ▶ Introduced Clean + MVI — led major codebase refactoring
- ▶ Reduced startup network calls from 6 to 1 via GraphQL (Apollo) migration
- ▶ Built multi-store distribution: Google Play, Huawei AppGallery, RuStore
- ▶ Managed Android OS upgrades including App Bundle migration

OK.RU — Social · Nov 2015 – Apr 2018

~40M MAU

- ▶ Owned login, registration, and account recovery flows for new user acquisition funnel

Mail.Ru Games · Apr – Nov 2015

- ▶ Two projects under NDA

Android Developer

BSS · Full-time Jun 2013 – Apr 2015 · Moscow · 2 yrs

- ▶ Developed and maintained a portfolio of 26 banking Android applications
